

Juan Diego Sotelo Aguilar

Data Scientist & Economist

Chía, Cundinamarca, Colombia | +57 315 890 5940 | juansotag1@hotmail.com

English C1 (IELTS) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL PROFILE

Data scientist and economist with nearly 3 years of experience turning data into business decisions for national and international clients. Specialist in predictive and machine learning models, demand forecasting, segmentation, and risk anticipation, with a strong track record building executive dashboards that reach high-level audiences. I combine deep technical command (Python, SQL, Power BI, Tableau) with the ability to translate analytical complexity into clear, actionable recommendations. Bilingual, with certified C1 English (IELTS).

PROFESSIONAL EXPERIENCE

Data Analytics & AI Technical Coordinator | Universidad de La Sabana (GovLab) *Jun 2024 to Present*

- Developed and deployed predictive and machine learning models (LSTM, XGBoost, Prophet, ARIMA) on 450,000+ records for demand forecasting and revenue projection, supporting strategic resource allocation.
- Built dashboards and analyses featured in national (El Tiempo, Canal Capital) and international (Forbes) media, generating over USD 1 million in earned media value in 2025.
- Designed specialized Power BI and Tableau dashboards for national and international clients (Fundación Universia & Banco Santander, Invamer & Comfama, FONDECUN), translating complex data into actionable insights.
- Applied segmentation, time series, and geospatial analysis to identify patterns, anticipate risks, and uncover business opportunities.
- Executed data cleaning, transformation, and integration pipelines with Python and SQL across 8+ concurrent projects, ensuring analytical quality and reliability.
- Designed and deployed AI tools in production across 4 institutions, generating real operational efficiencies.

Data Analytics & Econometrics Lecturer | Universidad de La Sabana *Jan 2025 to Present*

- Teach applied analytics to Engineering students: data preparation, model selection, and results interpretation using Python, R, SQL, Power BI, and Tableau.

Quantitative Analyst | Econometría Consultores *Oct 2023 to Jun 2024*

- Built statistical models and multidimensional indices on large-scale survey datasets (GEIH) and administrative records across 40+ municipalities.
- Developed a multidimensional youth welfare index used by ICBF for territorial prioritization, integrating multiple data sources.
- Produced analytical reports translating statistical outputs into actionable insights for government and international stakeholders (UNICEF, ICBF).

Data Analyst | Adrianople Group, Remote (Virginia, USA) *Sep 2023 to Jun 2024*

- Structured and maintained a curated database of 100+ startups across LATAM, Europe, and Southeast Asia, producing research reports in English for a US-based investment fund.

EDUCATION

M.Sc. in Applied Analytics (in progress) | Universidad de La Sabana *2024 to 2025*

GPA 4.7 / 5.0. Machine learning, deep learning, statistical inference, time series, NLP. AWS Academy Educator certified.

B.Sc. Economics (International Finance focus) | Universidad de La Sabana *2021 to 2023*

GPA 4.3 / 5.0. Applied econometrics, causal inference, and quantitative research. Pioneer study on youth unemployment using GEIH microdata (IV estimation), recognized by Minciencias.

TECHNICAL SKILLS

Machine Learning: Scikit-learn, TensorFlow, predictive modeling, classification, clustering, deep learning

Programming & Data: Python (Pandas, NumPy), SQL, R, STATA

BI & Visualization: Power BI, Tableau, Looker Studio, advanced Excel

Business Analytics: Demand forecasting, segmentation, risk anticipation, KPIs, trend analysis

Statistics & Modeling: Time series, statistical inference, regression, geospatial analysis

Languages: Spanish (native), English C1 certified (IELTS)

RECOGNITIONS

- Analytics Champion, Universidad de La Sabana.
- Two software developments registered as intellectual property with DNDA.
- AWS Academy Educator certified. Youth unemployment study recognized by Minciencias. Innovation award from IDB and Bogotá's Mobility Secretariat.
